

BOOSTER AMPLIFIER

A-BA-480W

Model:	A-BA-480W
Line voltage:	70-100V
Impedance:	4-16Ω
Rated power output:	680W
Weight:(kg)	18.5
Gross weight:(kg)	19.78
Dimension:	485*395*90mm
Frequency Responses:	60Hz-15KHz
Power Supply:	110V/60Hz or 230V/50Hz
Protection:	AC fuse,short-circuit and high temperature

Function:

1. Transformer isolated 100V, 70V and 4-16 Ohms speaker output, balanced, no grounding with 100V and 0db input.
2. 5 LED indicators for status display.
3. 0dB (3 Pin, Balanced) and 100V (2 Pin, Unbalanced) phoenix connector for links.
4. Output circuit shorting protection & display, Short-circuit warning and protection, over-heat warning.
5. Series amplifiers of high output power available.
